Customer Reviews

this book has a nice cross section of the OLDER Disney songs...as another reviewer says, nothing newer than the Little Mermaid. But i play at nursing homes, and those people want things from the 50's and before. So they know Snow White, and Bambi and Dumbo and even Lady & the Tramp, Cinderella and Sleeping Beauty. Lavender Blue, Dilly (made popular by Burl Ives) is a good one for them. This is easy piano, some of them are a little harder than others, but overall i would say they are easier than most "easy piano" books, which are made for intermediate players. There are little flairs at the ends of some of the songs that make them silly, which i just leave out. I don't like how "One Song," which is such a beautiful song, but is turned into a march by the bass line being a constant series of half notes, played steadily in a downward line...it is supposed to be an uplifting song, and i have had to read the guitar chords and play arpeggios instead, make it sound uplifting, the way i want it to sound. This is good for me, lots of people use the guitar chords to supplement their playing, but it is something i am just learning to do. So it is nice that they are there. I really wish

some of the verses were included in some of the songs, like "Let's Go Fly A Kite," instead of just the chorus. "Cruella DeVille" is perfect, according to my (teenage) children, who had to come off their electronics from out of their closed bedrooms to tell me :) Overall, great fun and i am so happy to have read other user's reviews and found this book,, i find the review system so helpful! Previously, i was playing from a 70's collection of Disney songs, and it was taking me alot of practice time.
