I've had this book for several years and have enjoyed playing and singing many of its wide range of songs. It includes songs such as Memory from "Cats", I dreamed a dream from "Les Miserables" and much more. Unfortunately, my one complaint is that two of my favorite musicals, Miss. Saigon and West Side Story, have been overlooked. Other than that...it was very enjoyable!

This was a good collection of songs, but I would recommend the Big Book of Broadway over this book. The selections in that book are better. The songs are challenging to play, as well.

I am very happy with this book. The wide selection of old favorites makes it easy to find something for almost anyone in it. I was happy to find songs which I had not found anywhere else such as "Love Changes Everything" from Aspects of Love and "You'll Never Walk Alone" from Carousel. The music is easy to read and works for many skill levels.

The book's so darned big that it keeps flopping over on my keyboard, and even when it's upright it's near-impossible to turn the pages. Why don't they make these things with spiral binding? I do like the music and the arrangements. They seem tailored to an early intermediate like me.

There was so much incredible music from the Broadway era of the 1940s to today 2015 that no one volume could encompass all of it or do justice to it in one volume. But this one comes close. This volume captures a good measure of Broadway through the decades with some of the greatest selections from my favorite composers Rodgers and Hammerstein, also Lerner and Loew, the

Gershwins, Cole Porter, and my other favorite Andrew Lloyd Webber with Tim Rice and Don Black, also the great Marvin Hamlisch with Edward Kleban, Stephen Sondheim and Leonard Bernstein -- the list is long. If you want a nice Broadway music book that covers a good portion of the Great American Songbook through Broadway musicals, get this book. To paraphrase a song, you'll get a singular sensation that just can't be beat. Enjoy.

As the book title says, this is pretty much the best set of Broadway songs! from show stopping numbers to the old favorites you know and love, this book has it all. a supersize i wasn't expecting though. this book also has guitar tabs for the songs as well! you can play these tunes on mutable instruments and can learn guitar all at the same time!

This book has nice arrangements of many of Broadway's greatest, most memorable tunes--from "Oh, What a Beautiful Morning" to "Evita" to "Sunrise, Sunset." The level is such that I can whip these pieces into shape in a reasonable amount of time. I like the book so much that when I thought I'd lost it, I bought another one.
