Customer Reviews

I really enjoy teaching with the Faber books in addition to other methods I use. No matter what the level, this series focuses on getting my students to read their music more quickly. There's a strong base in music theory and I find my students play from the grand staff a bit more quickly. The pieces tend to have a bit more challenge to them, depending on level, and I've seen very good results using these books. From lesson books to theory and technique and great solo pieces, I recommend these as a piano teacher. Technique & Artistry Level 4 Faber Piano Adventures Second Edition

I always use Faber and Faber piano books for my students. They reinforce each other in theory, technique, lesson, and performance books.

We've used these books for years for my son's piano lessons. Great books, great variety of songs.

He loves to practice!

I'm a piano teacher and I have found this series to be the best out there. The technique book is very good, and the whole series is in a very logical, progressive order for ease of learning piano,

Our piano student uses the books and we really like them. I love that I can order the next set online when we need it. These were recommended by the piano teacher.
