Customer Reviews

This will be a very short view, as I am musically functionally illiterate. I purchased this set for my spouse, who is a musician, and now a singer. Both she and her voice coach claim that these are really great books for training choristers to become soloists; her Schola conductor agrees. If three people who know what they're talking about all agree, I'm inclined to think they're right.

This is a great book for a voice student. It has a wide variety of songs from many genres. I like the spiral binding that allows it to lie flat. My only criticism is that it really is 3 books bound together with 3 separate indices that are hard to find quickly.

It's nice to have all three books in one place. The only annoying part is the table of contents isn't at the beginning but instead Part II table of contents is a third of the way through the book.

I love this series, and it's even better with all 3 parts included! So much easier to store and it's cheaper than buying them all individually! This is a great buy!

It's nice to have Parts I, II, and III in a comb-bound book that will lie flat when open so you don't have to break the spine of the book.

Music is easy to learn and it's not trite. I'm looking forward to learning new music to sing, both for church and for recital.

Great variety of songs for my teen voice student.

Delivery was fast. Book exceeded my expectations
