## **Customer Reviews**

Comprehensive ID guide. Easy to find a depiction of gramma's glass. I wouldn't use this for a price guide, nor would I buy a piece of Fenton for the prices they quote!!! TOO HIGH and very misleading.

I have written reviews for everything and they keep coming back up for me to review. The book is great. Delivered on time but over priced for an old book.

Fabulous. Great book at a great price. Invaluable information with close-up detailed pictures and prices. Highly recommended for the collectors.

I bought the item as a reference book and I am very please with contents and information contained within it.

This is a good volume with the basics of Fenton glass. A good companion to the volumes on Depression glass.

Great book. I love it. I will get much use of it and learn a lot from it. Thank you

I am very happy with this book and the information it contains.

Love the book, want to get more and on Indiana glass.
