More Mystical Mandalas Coloring Book: By The Illustrator Of The Original Mystical Mandala Coloring Book (Dover Design Coloring Books)

Synopsis

Hours of creative coloring await with a cosmic collection of mystical mandalas! A microcosm of the universe, an aid to meditation, and a hypnotic art form • there are many facets to the mandala's appeal, including the allure of a coloring challenge. Thirty-one intricately detailed circular designs offer colorists of all ages the chance to create dazzling kaleidoscopic effects.Â

Age Range: 9 - 12 years

Grade Level: 4 - 7

Customer Reviews

I purchased the book as I already have the first of the series, and have been very pleased with it. This book is disappointing in several ways. First is the paper quality, which is very thin. Pictures are printed on both sides and due to the paper weight, it would be impossible to use marker unless pictures are copied onto individual pages, which is a copyright violation. Finally, the drawings are by the same illustrator as the original, but I find that there is just one face picture as compared to the other which had several. I was hoping to get more variety. Being that I find only one truly mystical mandala, this is being returned.

Heavier outlines on some designs and gray shaded areas on a few others, unless some of the gray is actually black from many small lines converging. Did find myself not liking many of these designs,

only partly because of more black use here than was in the Mystical Mandala Coloring Book. Also not happy that there's a design on both sides of the page...and markers Do go through to the other side. This means you can only color half of the designs. Good thing I got this on sale from Dover online.

Alberta Hutchinson draws fun mandalas. I purchased her first book last year and was delighted to find her second book. I enjoy coloring in this one as much as her first book of the same name (minus the word "More" in the title). It's a fun book for colorists of all levels.

This book turned me on to the pleasure of coloring mandalas. There's a good variety from fairly simple to reasonably complex. I have colored more pages out of this one than any other book. Designs are on both sides of the pages, so I've just used color pencils to avoid bleed through. Some pages are pieces of designs very enlarged - not much fun for me, but I think it will be good for working side by side with my grandkids on the "same" designs.. Fine book at a good price.

I really enjoyed this book (am still enjoying it) the designs are attractive and interesting -- and really help keep me centered and relaxed. The only downside is that the pictures are printed on both sides. However, this is my second copy, so I obviously like it and would recommend it.

Love this book. I bought this one because I have the first volume. I would have given it five stars but the pages are printed on both sides.

I am a big fan of mandalas coloring books and this one is an all-time favorite.

The images are printed on both sides....I didn't like that!! Because as we all know, the colors will bleed through. So unfortunately, u can only color one side so therefore you lose half of the coloring book!! Quite dissatisfied.
