Customer Reviews

I own all the books in this series and find them to be great inspiration for design projects. I also feel like I have taken a coffee-break trip to a foreign land when I spend time between the pages. It is a wonderful thing that these authors have documented the beautiful floor designs of Puerto Rico and done so in a manner that provides a design tool for us. The CD of the tile images is included with the book.

Gives you just enough info and a great variety of typical patterns. I was able to find both the main pattern and border that I have in my house in Santurce. If you have an old house in Puerto Rico -

you should have this!

An excellent research to be treasured by everyone. Illustrations (photos) are of the best quality. Was able to spot the ones which once graced our house when I was a youngster. Two thumbs up.

El libro esta espectacular y la recopilacion de los dise~os de las losas es muy amplio. Se ve el gran esfuerzo que se puso para hacer el libro. Los felicito

The book is excelent. It helped us to find a replacement pattern for the tiles we had in our house
