The cover picture is included in this book and if you love the cover picture than you are going to love every single Mandala in this book. Every Illustration is a work of art, perfectly balanced, imaginative and fluid mandalas in circular form, just waiting for you to add color with Markers, Gel Pens or Colored pencils. A wonderful book to add to your coloring library or give as a gift to adults, college students, or school aged children. 1. 50 circular mandalas printed one per page (the back of each page is blank) on medium weight, bright white paper. 2. Each mandala is centered on the page and each averages 7 5/8ths wide. 3. All markers leak through the pages in this book, I place a piece of paper under the page I am coloring to prevent damage to the next picture.

A wide selection is included, with growing skill levels. Very nice. I would like perforations near the

binding so they can be taken out evenly. I like to put them on clipboards to color. Thank you for your excellent product.

I have to say, this is perhaps the best adult colouring book I've purchased, though to be fair, I've only bought a few so far. The designs are nice and symmetrical and the paper they are printed on is a nice thickness that takes my choice of colouring utensils beautifully. Some of the designs contain elements that are a bit repetitive, however the size and complexity of the white spaces makes each one unique. Some designs have super fine spaces meant for ultra fine tipped pens. Others can be coloured using broad markers. All designs are one sided, so you don't have to choose any design to sacrifice. The only downside is that the paper is non-perforated. I know this is an issue that sometimes sways buyers. Personally, I try to go for perforated pages, but in my opinion, that didn't change how much I love this book. It might mean that you have to put a piece of thicker paper or card stock under each page (if you use permanent markers). Pros:- One sided designs.- Varying complexity.- Paper is a nice weight.- Designs aren't so big that they reach the binding.- Takes colours nicely for vibrant pictures. Cons:- No perforated pages. Neutral:- Some designs minimally repetitive (but no duplicates).- If using Sharpies or other permanent markers, may need to place something between pages to avoid staining next page. Supplies used: gel pens, Sharpie ultra fine tip markers, Crayola coloured pencils, Crayola broad tipped markers

I really loved this coloring book. The sketches are dark and crisp and the perforated pages makes them easy to remove for coloring and framing. I definitely recommend this book because it is so relaxing and the pics are cool. I have loaded some of my best pictures that I have completed so far, hope you enjoy seeing them. I have been coloring for about three months and since I am disabled and retired I have more time to color. My pain ebbs during the time I am coloring and it seems to raise my appreciation for life higher. This coloring is highly recommended by me.

I love this book! It is so soothing to color in the patterns. I use markers and I am impressed at how well the paper absorbs the ink with very minimal leaking - I always have a scratch piece of paper in between and there is only one tiny spot that bled through, and I've used the same scratch paper for 6 different mandalas now.

World's Best Mandala Coloring Book has a good balance of tightly drawn patterns and more open patterns. It's got a Hindu feeling to it, which makes it interesting and encourages me to use the

strong, bright colors of India. One drawback is the thickness of the paper, which is thinner than any of the other coloring books I've gotten, almost as thin as standard copy paper, but I tear out the drawing and put a piece of thicker paper under it to protect my lap table. (I use fine Bic marking pens, 36 ct, and Sharpie ultra-fine, 24 ct., which do leak through.

Nice thick paper. A few of the mandala's are a bit bland, but I use my markers on those and my gel pens and/or colored pencils on the more intricate ones. I would recommend this book to adult coloring enthusiasts. I would purchase from this company again.

I've loved to color since childhood. These designs are beautiful. My colored pencils work well. As I colored, I felt less stressed as I was losing my 15 year old cat to renal failure.
