Customer Reviews

I received my copy of Stress Relieving Cats today and was pleasantly surprised by the quality and variety of images in the book! The cats come in a variety of poses and breeds and don’t seem quite as stiff as cats in some of the other cat coloring books I have seen. My favorite is a page with different cats inside boxes. The paper quality is pretty standard, so I will be using a sheet of paper between pages when using markers.

I bought this Adult Coloring Book for my elderly aunt who is suffering with Alzheimer’s. I am pleased to say that my aunt has enjoyed coloring in this book and it brings her a sense of peace that she desperately needs.

Lovely pictures with a lot of detail. Allows for personal creativity so that no one is "wrong" in what colors they choose! I will be framing some of mine.

I am not so sure how I feel about this book but my expectation was for something more illustrated. Aside from the topic (cats!) I really don't find many of the drawings intriguing or the content cohesive. Many of the drawings have such tiny spaces you wouldn't even know what to put in there with just a point of a gel pen. Other are wide open and leave you to create what you want in the space. But it is a lot of blank page. The quality of the paper is nice enough but I can't really recommend this book. I am sorry I spent the money on it.

I love this coloring book! I did not order it at first because of the Karen Gory review. But, once the price was dropped to \$4.99, I took the chance and bought it and it is my favorite coloring book. I love the abstract cats!

This book was not what I expected from the front cover. Almost all the designs are too simplistic and/or abstract for me, and there were random little black dots on quite a few of the pages, and very light greyscale printing, which is too hard to colour. My favourite design is the bold black cat mask on the very last page, and a tall Siamese appealed to me, but since that's only 2/30, we returned the book to . Not my style at all...

Great coloring book! I'm a cat lover and recently picked up adult coloring. The designs are pretty fat, so they're easy to color in. Most of the cats have designs all over their bodies like the one on the cover. I've really enjoyed it so far and would recommend it for the price!

This is a really neat coloring book for we grownups. Intricate patterns keep your work from being boring. If giving as gift consider including colored pencils or water color pencils. Paper was good quality. Fast shipping with Prime
