## Customer Reviews

This is a cute book of animal designs which have been âœhand-selectedâ• by the publishers (which means that they have licensed the images from the artists) from around the world. This gives us a variety of styles and designs within one book instead of having to purchase multiple books. Most of the designs in the book are full body but a few (such as the cover) are head shots. The designs are mostly fairly simple to color but have enough detail to make coloring them fun. For the price, it is a great book to pick up if you are an animal lover and you like to finish your designs quickly. All of the designs stop well before the binding. The designs are printed on one side of thin white non-perforated paper that is typical for books published by CreateSpace. The binding is glued but there is plenty of room for you to cut a page out if you choose to do so. All of my markers bleed through and my gel pens either bleed through or leave a distinct shadow on the back of the page. My coloring pencils work well with the paper. I will use a piece of chipboard or heavy paper behind the page I am working on so I don't ruin the following page with leaking ink. While I could wish for

thicker, perforated paper, it appears that this is the quality that comes from CreateSpace (which is an company.) What I really like about the CreateSpace is it is a way that independent artists can get their work self-published. That way, I get a huge choice of design styles albeit with not the best paper. These are the coloring medium that I use for testing.
