This coloring book is a lovely set of 30 mandalas made up of very pretty flowers. It is one of the newer books in the "Coloring is Fun" series by Thaneeya McArdle. The designs are really lovely and should be fun to color. Most of the designs are in the traditional round shape, are centered in the middle of the page and have a lot of blank white space surrounding them. Some of

the designs are fairly open and easy to color and a few have some intricate details but I don't think I will need my magnifying lamp for these designs. In addition to the designs, the artist has included lessons in drawing, patterning, color techniques and media (including shading) as well as basic color theory at the front of the book, along with some great color examples (some of which I will show in my attached photos.) The lessons are generic to the line but the samples are specific to this book. The pages are white and are perforated for easy removal. The designs are printed on one side only with inspirational quotes on the back. The quotes have references to flowers which, as a home gardener, mean a lot to me and are very touching and motivating. Below the quotes are lines which the colorist can use to journal their own thoughts and feelings. All of my markers and gel pens wick through these pages. If I use either of them, I will put a piece of thicker paper or freezer paper under the page I am working on to keep the following page from getting ink on it.

NOW THIS BOOK WAS EXACTLY WHAT I WANTED IN A MANDALA COLORING BOOK!!!! THE PICTURES ARE ABSOLUTELY BEAUTIFUL AND THEY ARE SO NICE TO COLOR. I USED COLORED PENCILS ON SOME PICTURES AND ALSO USED GEL PENS ON OTHERS. THIS BOOK IS VERY RELAXING TO COLOR WITH. I DON'T WANT TO USE THIS BOOK UP SO I'M COPYING THE PAGE ON MY PRINTER AND THEN COLORING IT. THIS BOOK IS TOO NICE NOT TO KEEP AND USE OVER AND OVER AND OVER AGAIN. ITS DEFINITELY ONE OF MY FAVORITES!!!!!!

Floral mandala gardens for us to enjoy coloring.~ 30 unique mandalas~ 5 pages of coloring and embellishment instructions~ 8 pages of exemplified colored pages to spark up our own creativity~ 9 more examples of colored pages~ excellent quality paper for gel markers, colored pencils, watercolor markers and alcohol markers~ inspirational sayings on reverse side of each page by various famous people~ enough open space in each design for great shading/highlighting and/or embellishing - creative potential lives amongst us all!~ each page is perforated for easy removal Thanks for a great coloring book!

This book has beautiful mandala's in it to color. My husband loves them when I'm done coloring them that he's put them in picture frames to hang up in the house. Isn't he wonderful!! An added bonus is that the pages are perforated so you can easily tear them out to color. I also color with my granddaughter when she's here and we have lots of fun together. She's 7 and she colors some beautiful mandala's we're going to start hanging hers up too. Lots of fun by yourself or spend time

with you children or grandchildren and make special memories.

This is another wonderful coloring book for my 'artistic kid' to enjoy. She says this is one of her most favorites so far. The pictures are glorious when she finishes them. I will say that it takes a lot of patience which I don't seem to have but she does. I am happy to provide these coloring books for her. This one makes for some beautiful art work.

I love the designs in the book. They are perfect for me as they are not too intricate but, still a challenge. The size of the book is perfect and it has perforated pages that are easy to detach if you choose to detach them. The book came in a manila envelope that creased the bottom sides of the book all the way through but, did not get near the pictures so, that was no big deal for me. The reason for the 4 stars instead of 5 is because the paper is quite thin. I don't understand why these publishers don't use a heavier paper and charge a couple bucks more a book! I would gladly pay it.

I got this one for my grandmother because she loves coloring as much as i do. I have several of McArdles coloring books myself and she says she loves the designs. I will get another one for myself when I use up some more of mine...I have at least ten coloring books from various artists and like to vary the types. Mandalas are specifically calming and healing so I recommend this one if you haven't done mandalas before, it's a great introduction to the art.

I love every book by Thaneeya McArdle her pictures are so cute and fun to color, the paper is wonderful and they are single sided (which is a HUGE selling point for me) after her artistry of course =) These books (ALL of them lol) are a MUST have. You wont be disappointed! I love her work and look forward to new books in the future.
