Stickerbomb Skateboard: 150 Classic Skateboard Stickers

Synopsis

Skateboard stickers have always been highly collectable, and this will be the first book to bring together some of the most popular stickers, both classic and new. At a time when skateboarding has already established itself in the mainstream, and is now coming back into the 'cool', the book will have massive appeal, combining a nostalgic 'revival' element appealing to the older generation of skaters, while also having a big appeal to current younger skateboard enthusiasts. The book will also have global appeal due to the widespread popularity of skateboarding culture. The book will feature stickers from the following brands: Alien Workshop, REAL, Toy Machine, Girl, and Santa Cruz. Approximately 30 stickers will be included from each brand.

Customer Reviews

Bought this as a Christmas gift for my 10yr old son who is a complete skate rat. Some great old school stickers, but there is a lot of repeats. Also....if getting this for your kid....be cautious because some of the REAL stickers are slightly offensive. All in all...great book. My son already bombed his new deck.

Best value by far for true skateboard stickers don't be fooled by other sellers claiming skateboard stickers reD the reviews you get random cheap crap but with this book you get actual skate stickers a must buy !!!

This is actually really cool! There's like 4 or 5 sections of different brands and at the beginning of

each section is a little description of the company and how they got started, which is pretty cool! I was just expecting a sticker book but this actually a book, impressive.

I must say I absolutely love and appreciate the creation of such an awesome collection of sticker bomb books!!! So please with that being said could you think about waterproofing and rub proof , if just the tiniest bit of water hits them doneski! !!! Please consider it?????? W/mad love & respect
Sticker fan

Good book. Awesome stickers from 90's era skateboards. The stickers are paper-backed, not really high quality screen printed ones, but good enough for indoor use.

Love the stickers, fast shipping

Great book, worth the price.

Great selection, and a whole lot of nostalgia. But the stickers are fairly cheap and paperish. They won't stand up to any sort of light scratching or even a dash of humidity.
