I loved Jukebox America. The author makes prose lyrical. It's a fun trip with the Spirit in the Sky, in search of the Juke of the Covenant. Anyone interested in the American musical journey will know that this is a worthwhile roadtrip. It was over too soon.

If you are a fan of jukeboxes or music recorded on 45's, be aware of this book. I own a jukebox and have about 1,000 45's and didn't particularly like it. If our hero had been my age (60), liked all 50's music, then I might have identified with him and his story. Instead he was a 30's something with a yuppie mentality searching for a holy grail that doesn't exist except in his own mind. I empathized with his sadness about the loss of a bygone era, but that was about it. He threw in a part about searching for the real Elvis and here is where I thought he really missed his mark. It would be like me writing about Rudolph Valentino with no first hand knowledge of the man. Nothing was learned here. I also got tired of his political commentary along the way.
