199 Vaginas: The Ultimate Photo Collection

Synopsis

Vaginas, vaginas, and even MORE vaginas. Feel like a gynecologist when you see how close some of these photos take you to the love canal, also known as the "pussy". These color pictures range from three inches away to three feet away. Men and lesbians alike will love comparing the different vagina pictures, all fully nude / naked, all in full color. There are wrinkly vaginas, smooth vaginas, hairy vaginas, shaved vaginas, puffy vaginas, and shrunken vaginas... open vaginas, and closed vaginas.... pale colored vaginas, rich deep colored vaginas.... This is an 5 by 8 book with two pictures per page, so these certainly bring the vagina to life. Don't think of this as XXX Sex Porn, think of it as beautiful feminine erotic art. All shapes, sizes, and colors are in this book, a compelling collection of women from around the world. No actual sex, but WARNING; VERY GRAPHIC NUDITY.

Book Information

Paperback: 102 pages

Publisher: CreateSpace Independent Publishing Platform (December 21, 2009)

Language: English

Customer Reviews

The photos contained in this book appear to be printed on a 10-year old inkjet printer, and look like blocky, low-resolution, enlarged images. The pages are not glossy, the photos are obviously not professionally taken. It looks like the author just copied and pasted thumbnail photos from adult websites and printed them at home. Basically, with an hour on the internet and a modern printer, I could create a much better, higher-quality book than this. Not recommended.

All the pictures are pixelated and fuzzy. Basically looks like they searched the net, Copy-pasted (stealing) a bunch of images, enlarged them and threw them in a book. Don't like it,

im going to return it

I have been photographing nudes for many years and had hoped that his book would have been a great deal better. The images in some cases are so poor quality that you can see pixelation in them. In addition to that there are two small images per page and again the quality is such that I just kept getting more disappointed with the turn of each page. I don't recommend this at all!

I cannot understand how a pictures book is printed with low resolution photos. There is, in fact, many vulvas in many forms, but the quality is very low. It not worth the buy. I bought the three books (199 Vaginas, 399 Breasts and Female Anatomy Close-Ups) all of them with the same problem.

The correct title of this book should be:199 Pictures of Vaginas that I Downloaded CollectionI'm a bit concerned about this book. The copy I received has no copyright information in it There is no publication information(including publisher's name or address) in it! There are no model disclaimers stating that the models in the book were all over the age of 18 when the photos were taken! (Do I now possess pictures of underage girls' vaginas?)BUYER BEWARE!The images aren't that good either. Each is only 4"X3". It's printed on low quality paper for color photos. Lots of the photos have digital compression noise in them (often from download and file size). There is a lack of consistency in the photos, all the angles and lighting varies. Most artist/photographers will have a signature style to their pieces.Is there no copyright or publisher info in this book because all the content is someone else's art and it was re-sized, cropped and used without permission? Could be!

This book would be perfect for a person with no computer. All the images look like low to medium resolution web downloads from the Internet. Good selection, no doubt. But also nothing that will wow a better than novice surfer.

This book is a fraud, there are images that you can see were downloaded from internet and "printed" on that low resolution. Don't buy it !!

it is wat it says, 199 vaginas; however, the photos are kind of grainy and not glossy. decent photo angles and content, just low quality printing.
