## Customer Reviews

This is exactly what I was looking for. I'm refreshing my skills on the cello so I wanted scales, etc. These are the type of exercises to get you "back in the groove" quickly.

I am happy that stocks method and scale books. Otherwise I would be traveling 50+ miles to get to a good music store. This book was required by my son's music teacher.

Great for all levels!

Another classic for young cellists. A must have for scales, arpeggios, and additional exercises. Excellent book.

book recommended by child's cello teacher, so far so good.

Just good. No complaints from my boy to exercise.

Exactly what we ordered. So all is good

excellent product as described
