Customer Reviews

Very nice book. I love it.....But beware that the book is only 1/2 color by number. The other 1/2 is the same pictures but for you to color the way you want. It doesn't bother me, as I like to do both. Just wanted others to know.

Half the book has the numbers as a key -- but those colors are very boring. The other half are the exact same pictures. The pictures lack creativity and 1/3 of them are architectural and blocky -- meaning you would color large sections all the same color. Skip this one.

Not what it said it was going to be. It is not your typical color by numbers. I returned...

Numbers are blurry in some pages. :-(
