Customer Reviews

Adult coloring books have burst upon the scene in a big way. lists a thousand of them, while half of 's top twenty are adult coloring books. They offer recreation and stress relief. While calling us to color them, they are artworks in themselves. Travel Inspired Coloring contains 100 pages of streetscapes, skylines, and landmarks. I can recognize scenes from Paris, London, Venice, and New York, as well as the Leaning Tower of Pisa, the Great Wall of China, Hagia Sophia, St. Peters, the Pyramids and Sphinx. Others are not so obvious to me. While it was fun guessing what the drawings were, it would have been nice to have a table to identify all of the locations. This book will appeal to those of us who have traveled or who have only dreamed of traveling to exotic places.

I really love this book! There are so many exotic places to color. The paper quality is excellent and

there is a gold foil paint through out the book that I really like. I feel like it adds something special to each picture. The only drawback is that the pictures are on both sides of the pages. This is an unusual coloring book, unlike any of the others that I have. For that reason alone, it has a special place in my collection.

I gave this travel inspired coloring book to a group of friends as thank you presents for traveling with me to Europe for my birthday. The books coloring pages are really nicely laid out, I wasn't at first a fan of some of the gold coloring already done on some of the pages, but as I started to look at the page layout, I started to see how pretty the accents were. My friends loved the books, and I've since looked for other travel inspired coloring books to possibly give to family as stocking - stuffers for the holidays.

It's OK. Not special just ok. I think i was expecting the backs of the pages to be blank so i could makers without it leaking on the next picture but that is not the case. The pictures are on both sides of the paper

Awesome coloring book. Very relaxing. Coloring as an adult is even better than when I was a kid.

Gold foil on each page is irritating. Illustrations alright. Just mediocre at best. Destinations were varied.
