Customer Reviews

This study material contains a lot of idioms, which is nice for advanced learners. There is a lot of information, so be prepared to work hard. Dialogs are very good - short and realistic (can be useful for real life in the US). I recommend this material to advanced learners or those who already live in the US. However, for mid-level learners this material will be overwhelming.

I learned a lot of American idioms from the CDs while playing them in my car. It worth every penny that I spent. Highly recommended if a foreigner want to speak like an American. I only found Intermediate ESL level on the market. Anyone know that Living Language has published the higher level version?

This book is OK, but if you want a really good and interesting book on American idioms, get "Speak English Like an American."

That's a real conversational book . So if a teacher really wants to improve ones conversational skills , easy american idioms will make a huge difference !!!
