## Customer Reviews

I bought two of these, and I'm glad I did! My Goddaughter and I both love Adventure Time with a special love for the vampire queen Marceline. Adventure Time has gone to great lengths to craft a

fun background history between Marceline and the Ice King, and I can't wait to learn more about the two of them. In short, Marcy was a small child, lost and alone amidst the debris of a world catastrophe when a kindly scientist by the name of Simon Petrakoff finds and adopts her. They travel together, and this is when Marcy notices that her friend carries a large gold crown with him. Whenever danger occurs, Simon puts the crown on his head, and he gains the power to control cold and snow and ice, but doing so, it steals away his memories and his sanity, making him cackle and laugh maniacally as he utterly vanquishes the attackers. Each time he uses the crown, he loses more and more of his self and his control, and Marcy begs him not to use it, but survival calls for it over and over. Finally, Simon decides that Marcy would be better off without his growing insanity, and he leaves her, both of them in tears over the parting. The relationship between the two has delightful elements of father and daughter, as well as older and younger siblings/playmates, and as years go by, Simon's personality totally disappears and he becomes the irascible and sometimes very silly Ice King, while she has matured into a snarky teen vampire girl who plays guitar and sometimes makes bad decisions. Ice King still loves her, and it shows in things he writes from time to time, like the song "Just You and Me Against the World". Marcy cries for him sometimes, remembering how kindly he was, and how much she misses the person he used to be. This book is actually two books together.
