Customer Reviews

This is a new music book this year and so far, I am very pleased with it and my students love it. As a voice teacher with many years of experience, it has always been a challenge to find a collection of songs with enough variety to appeal to students of varying levels of vocal experience. So far, this book satisfies on so many levels. There are songs for both boys and girls and with enough music selection to progress from early beginner to low intermediate. Recommend this book for children middle school and younger. The CD is also very good. Unlike so many other accompaniment CD's the pianist wasn't afraid to nuance and emote, rather than just play the notes. For an unorchestrated CD, you will be pleased. WATCH OUT... Check CD IMMEDIATELY upon arrival to ensure it's not damaged in any way. I have received numerous orders from and the majority have been as ordered. However, I have been burned by products that weren't as advertised or slightly damaged, and my laziness cost me in my ability to not be able to return the product. Be careful to shop with a seller that allows for easy returns with no restocking fees. I am able to always find something to buy to get FREE shipping from and then there's never a problem returning. I love this book... hope you do too.

The songs are older Disney tunes, but it's a nice collection. We bought it for the CD accompaniment and that is disappointing because the songs are a little too fast. There are directions that say you can put it into your computer and slow it down with provided software, but we need to play it out of the house and so that doesn't help us.

I am giving this as a gift to my daughter so I'm not sure if it will be a big hit but I got it b/c all the review refer to the CD that has the accompaniment... my book has no CD, just a website w/ access code. This might not end up being a big deal but I would have preferred a CD so she could use it in her room on her CD player clock radio. I'm just confused since so many of the reviews specifically refer to a CD that comes with it...?

LOVE this book! I am a professional voice instructor and have been using this book for years - perfect for young voice students! The songs are nearly all in a good range for beginners - a few get a little high but I always save those for last. The included CD is not my favorite - most of the songs are too fast and don't take breathing into account. Here's a song list, for those of you who are curious: Happiness Tomorrow Born To Entertain Reflection Any Dream Will Do Maybe The Work Song Let Me Entertain You Consider Yourself My Favorite Things We're All In This Together The Candy Man Castle On A Cloud Cruella De Vil Ev'rybody Wants To Be A Cat Feed The Birds I Don't Need Anything But You I Got The Sun In The Morning I Know Things Now I Whistle A Happy Tune I'd Do Anything It's The Hard-Knock Life Les Poissons Let's Go Fly A Kite Little Lamb On The Good Ship Lollipop Part of Your World So This Is Love (The Cinderella Waltz) When You Wish Upon A Star

This is a nice book. I'm teaching a couple of 11 y/o and I find the songs all very appropriate for their age. They want Broadway styles, but so many songs are really not appropriate for younger kiddos. This fills a niche without my having to search and search for good appropriate songs. Whether you're a vocal teacher or a mom looking for age appropriate music for your kiddos, you will find this useful and enjoyable for preteens and younger. They also give a site where the accompaniment for the tunes (tracks) are available for download, included in the price of the book. I sort of wish they'd included a CD, but it's certainly an acceptable alternative.

Appropriate literature for young singers is often tough to find. These pieces fit ages 6-13--right

range, right challenge. Some familiar pieces, some not, which is a good thing for young ones. Suitable words and perfect song choices--this one is worth buying!

Absolute nightmare to download all of the songs. Someone at Hal Leonard was not thinking when they designed the download feature to be song by song with no "download all" option. Very time consuming.
