This is a neat coloring book. The girls are cute and playful. I have not drawn in a coloring book since I was a child, so it felt awkward buying this. I purchased this coloring book because I recently started drawing the manga style. I was running out of ideas and needed inspiration. This coloring book helped my art and direction. This is a fun book! I must say, there is one thing I would want to change the most in the illustrations are the eyes! One of the main features in anime art is the eyes. Most of the eye pupils have been filled in black, so it is almost impossible to give a dominant eye color. Other than that, this is a good book. The picture I added is one that had eyes I could color my own way.

I received this today. I love the artwork and as another reviewer mentioned there are a couple images with cleavage- if this is for a young child tear those pages out. That being said it makes a great adult coloring book. I think I will color a more adult image for my boyfriend LOL. I will have to copy some images to a heavier pound paper so I can color with markers or color the same picture

twice. I look forward to the next volume.

I received this book as a christmas gift. I haven't actually had the chance to color in it yet but i love the pictures. Good quality images and paper. Would recommend to anyone! There ARE a few bikini/light cleavage pictures so i might caution against a young child but teen and up for sure

Absolutely in love! Although there is a lot of pages of girls in swim suits. 0.0

If you enjoy Anime you will ADORE the 1st volume of Nick Snels Anime coloring book. Its full of fun pages and cute Anime girls. This book is bonded with glue the pages are of medium weight so would put something between them when coloring with anything besides a pencil. The book is not perforated but if careful a exactor knife would easily remove the page if needed. This book is definitely a must have in my collection and looking forward to the next book I get of Nick's.

Perfect for beginner coloring. Not extremely detailed and the book is a lot thinner than what I was hoping for. There are not as many pages than most of the coloring books I have previously ordered off . That being said it's on decent paper not extremely thick I'd take the pages out to color, I wouldn't color them in the book for fear of bleeding through but the paper isn't regular copy paper either it is thicker and has a good texture.

My daughter is 10 and very into Anime. I purchased this for her since it was a coloring book. When I received the book I was a little shocked. There are several pictures that are very suggestive. I do not think I would purchase this item again.

Very cute!! I love the artwork in this book. There are a few that are iffy and a little less anime and more just cartoony, but over all, they're really great. I draw a lot of anime in my spare time, but sometimes I just want to relax and color. This book is perfect for that!!
